HSM Profi Pack -- We put your old used cardboard to good use...

With their exceptionally low space requirements and their high performance, the HSM Profi Pack 400 and Profi Pack 425 are the ideal solutions for all shipping and warehouse areas.

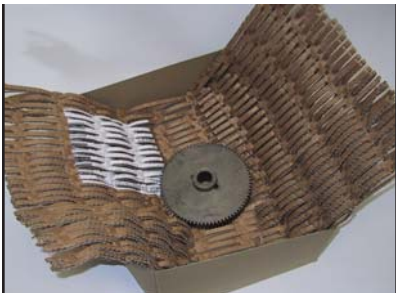

The HSM Profi Pack models instantly convert the bulky used cardboard boxes into an ideal and most importantly free packaging material, which disappears in boxes waiting for outgoing goods. What was once worthless waste material now has become highly effective packaging material to protect your goods during transit.

Edge cutting, perforation and padding in one run.
The end result is self-produced, high quality packaging material.

The special groove form of the cutting and perforation rollers ensures particularly effective padding.

High quality packaging material that will protect even the most sensitive of shipments.

Simple handling -- also suitable for large cardboards without first cutting to size.

HSM PROFI PACK -- our cardboard shredder distinguish themselves by:

- ◆ Cutting and perforation in a **single process** -- meaning no time wasted in trimming the cardboard beforehand.
- ◆ The **hardened blade rollers** -- made from a single piece of metal -- are completely resistant to damage from paper clips and other soft metal items.
- ◆ The **special geometry** of the blade rollers guarantees even, optimum padding of the material
- ◆ **Specially hardened perforating rollers** and sturdy bearing plates guarantee reliable padding without bending, twisting or catching in the cutting apparatus -- thus extending service life and saving subsequent costs.
- ◆ The **sturdy housing** made of sheet steel has been specially designed for the rigours of use in the packaging and shipping areas.
- ◆ The **practical measuring scale** enables you to measure the width of material you require quickly.
- ◆ A generously proportioned worktop ensures comfortable and **simple operation**.
- ◆ Naturally, the shredders meet all national and international **safety standards**.
- ◆ Our two high-tech ProfiPack machines offer **excellent value for the money**.

...in an instant!

HSM PROFI PACK 400

THE ALL-IN-ONE WORKTOP MACHINE

- ◆ Our powerful worktop machine is portable and flexible in use
- ◆ Especially space-saving thanks to its compact size
- ◆ Thermal fuse protects the motor from overheating
- ◆ AC power connection
- ◆ ON/OFF and REVERSE rocker switch for easy operation

HSM PROFI PACK 425

SO POWERFUL YET SO MOBILE

- ◆ Our multi-functional standing machine has rollers for easy moving
- ◆ Low dust generation, but can be connected to dust extractor system
- ◆ Large motor provides high throughput speeds and power to spare
- ◆ Handles multiples layers with ease
- ◆ Thermal fuses on all three phases protects the motor
- ◆ Comfortable and easy handling with a turing switch for ON/OFF/REVERSE

Profi Pack 400 Specifications:

Feeding Width	16 $\frac{1}{3}$ ''
Feeding Height	$\frac{1}{25}$ ''
Cutting Capacity	1 layer
Cutting Speed	26 $\frac{1}{4}$ ft / min
Power Input	1.15 kW
Voltage	120 V - 50 Hz
Dimensions	23.23" x 14.57" x 14.17"
Weight	82.03 lbs
DB	Idle: 66-68 Load: 66-67

Profipack 425 Specifications:

Throat Width	16.75''
Cutting Capacity	2-3 layers
Cutting Speed	39.5 ft/min
Motor	3 hp
Voltage	208v 60/30 amp
Dimensions (<i>W x D x H</i>)	27.5" x 19" x 38"
Weight	386 lbs
DB	Idle: 64-65 Load: 67-68
